

COMATRA

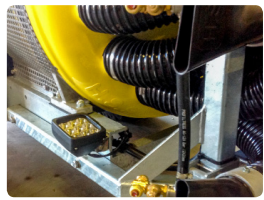

Blue LED Sprayer Boom Lights

Properly functioning nozzles are imperative when crop spraying at night !

See it in action on YouTube

The **COMATRA CMTXV10 Blue LED** Light is specially designed for crop spraying equipment ensuring perfect illumination

Why spray at night ?

- Some insects only come out at night.
- At night there is less wind and spray drift.
- A lot of chemicals evaporate slower in the dark.
- Plants are less stressed in the dark.

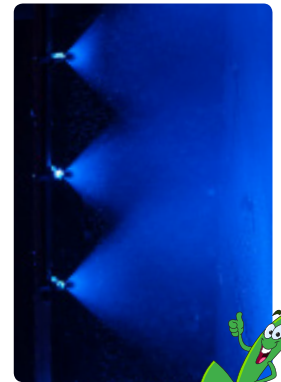

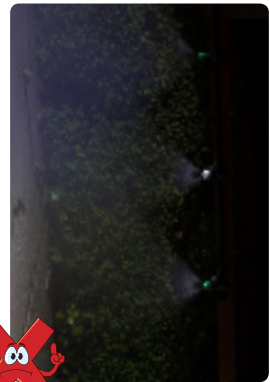

Blocked - defective nozzles = loss of money and less yield !

Why illuminate a sprayer boom ?

An accurate and proper sprayer boom illumination will enable you to see and monitor properly functioning nozzles and spray pattern from the cab.

Why a blue light ?

The blue LED Lights provide a much higher contrasting blue light than any other traditional white light or blue lens lights. (see image above)

Specifications:

Input Voltage Range DC :	11 ~ 100 V
Power Consumption :	16.2 W
Nominal Current at 12V :	1.42 A
Nominal Current at 24V :	0.72 A
Connector :	Built-in DT connector
Wiring :	Pre-wired 3.0 m cable with DT plug
Mount :	Single Bolt M10
Vibration :	8.6G
Lens :	PC
Reflector :	UV resistance coating
Body :	Vacuum metalized
Bracket :	Die cast aluminum
Weight :	Stainless Steel
IP rating :	0.815 kg
High temperature protection :	IP68
Operating temperature :	Thermal shutdown protection
CE EMC / RoHS / ISO :	- 40°C ~ + 50°C
	EN 55015:2013
	EN 61547:2009
	EN 50581:2012
	IEC 62321:2013
	ISO/TS 16949:2009
